

EXCHANGE COURSES IN HEALTHCARE

A programme for international exchange students who have obtained at least 120 ECTS in nursing, on bachelor level. The language of communication is English.

Before arrival students of the department PXL-Healthcare have to submit

- a report in English of their blood sample results stating that the student is immune to Hepatitis A and B
- a recent negative result for the intradermal Tuberculosis control. If necessary, a TB-control will be done in Hasselt upon arrival

All healthcare students will have a general health check before starting the placement.
