

EXCHANGE COURSES IN HEALTHCARE

A programme for international exchange students who have obtained at least 120 ECTS in nursing, occupational therapy or midwifery, on bachelor level. The language of communication is English.

Before arrival students of the department PXL-Healthcare have to submit

- a report in English of their blood sample results stating that the student is immune to Hepatitis A and B
- a recent negative result for the intradermal Tuberculosis control. If necessary, a TB-control will be done in Hasselt upon arrival

All healthcare students will have a general health check before starting the placement.
